Place of birth 

## EXPERTISE

- Principal areas of expertise

He has a long-standing experience in clinical management of connective tissue disease patients. The Unit in which he works is a 3<sup>rd</sup> referral rheumatological Centre, of prominence within Italy, for the diagnosis and management of patients affected with systemic connective diseases and other rare rheumatic conditions. In addition, he has expertise in the management and follow-up of pregnant patients with systemic rheumatic diseases.

Prof. Doria over 300 ISI publications are highly acknowledged. They include clinical studies describing new manifestations or subgroup of autoimmune disorders, prognostic risk factors, diagnostic tests and therapeutic interventions as well as immunochemical studies which evaluate autoantibodies, epitopes and complementary epitopes of autoantigens. In addition he has authored or co-authored 3 books, over 90 book chapters or Conference Proceedings and over 500 abstracts to national and International Conferences.
