### **Publications**

Since 1985 CG is an author/co-author of more than 500 papers in peer reviewed Journals (h-index: 65. Citations > 13.000) (Scopus). Most papers have been on paediatric infectious diseases and particularly on HIV infection in children, bacterial and emerging infections ranging from basic science to clinical research including many clinical trials. Since my first paper in the Lancet in 1988, a number of the most relevant papers in which I’ve been involved have been written in collaboration with UCL (ICH and MRC/CTU)
